Trim Calculation

Return	Calculation
3"	Cornice width + 12" Multiply total x 2
6"	Cornice width + 18" Multiply total x 2
8"	Cornice width + 24" Multiply total x 2

Example:
 66" cornice with 6" returns
 $66 + 18 = 84$
 $84 \times 2 = 168$
 168" needed or 4.67 yards

Note - All yardage calculations are based on fabric with a 27" vertical repeat. Please contact June Tailor if a more accurate yardage calculation is desired.
